1. Read the passage given below and answer the questions that follow:

India is a land of farmers who are very simple and hard working. Their only wealth is their land. If their crops fail, they run into debt and lead a miserable life. They are mostly uneducated. They are not familiar with the new implements and improved methods of farming. They use the same kind of plough as was used many centuries ago.

Our government is trying its best to improve their conditions. They are encouraged to use modern technology, good seeds and manure. They are given loans at the low rate of interest.
